🪪 Profile

Front-end Developer with 2+ years of experience, and developing sites and internal frameworks. I have a newfound appreciation for life and working hard to get to where I wanna be. Frontend development has emerged as a passion of mine shortly after graduating computer science school back in 2018. Since, then I have made it my mission to be on top of the game, and for the most part, it has been a successful endeavor.

🎓 Education

2014 – 2018 Cairo, Egypt	**Bachelor Of Computer Science And Information Technology,** *6 october university* 🔗
